WESTIN WRZESINSKI

Chicago, Illinois   (708)-224-8148   westin.wrzesinski@gmail.com

EXPERIENCE

Slalom Consulting, Chicago, IL

Solutions Architect, March 2015 – Present

- Lead Architect for rebuilding internal tools at a key client onsite in Silicon Valley. Leveraged many modern JavaScript technologies including React, Redux, and Webpack. In charge of senior engineers from both Slalom and the client.
- Member of Slalom leadership team in training new hires and advising on new project architecture.

Senior Software Engineer, October 2014 – March 2015

- Lead Engineer on rebuilding senior citizen health care enrollment forms for HCSC Blue Cross in React and Flux.
- Lead Engineer for the front end team dealing with transitioning HCSC Blue Cross general enrollment into a micro-service architecture utilizing MongoDB, Java Spring, and Backbone.
- Led boot camp on learning React across Slalom offices including Chicago, Seattle, and Dallas. Also performed bootcamp for a few key clients in Silicon Valley.
- Led boot camp on learning ES6 Javascript at the Chicago office.
- Organized course for Structure and Interpretation of Computer Programming in Clojure.

ShopLocal, Chicago, IL

Software Developer II, May 2013 – October 2014

- Worked with BliNQ media (sister company) to update their Ruby on Rails applications to be compliant with Facebook's Open Graph API changes and also architect new applications to better suit client needs and cover more verticals that may be interested in advertising on Facebook.
- Led development of AutoLiFT, a facebook ad creation tool for the automotive industry using data from cars.com.
- Primary developer of newest iteration of company's main development platform using AngularJS, RequireJS, and .NET Entity Framework.
- Developed new framework from AngularJS for rapid deployment of micro sites for small retailers using AngularJS
- Maintained existing JavaScriptMVC applications and slowly rewrote to Angular 1.2
- Managed RESTful Entity C# API

Software Developer I, May 2012 – May 2013

- Created custom widget for retailers to display their weekly ad circulars in ad blocks of publisher's web-pages, which was featured on AOL mail's homepage
- Developed Web Applications in .NET MVC 3.0 and JavaScript for retailers such as Staples, Ikea, and The Home Depot
- Worked with creating and maintaining in house JavaScript and JQuery libraries

Software Developer Intern, May 2011 – May 2012

- Worked on development of internal QA system using the Rally API and C#
- Worked on Adobe Flex web applications for big box retailers including Best Buy, Target, and Walmart
- Worked with JavaScript, ActionScript, C#, HTML, CSS, and MXML
